Douglas and Valois,

Just trying to upload Powertech's comments and it appears that cannot currently do this as there is some problem with the webpage for the draft permit site on www.regulations.gov. I have reached out to Omar but have not yet heard anything from him.

Perhaps, you can advise what to do since the page is not working. Is there any alternative method of delivery if we cannot access the site. Can I just provide the comments in an email since this is not working?

Attached is print out of what I get when trying to access the site.

Thanks.

John
